

To whom it may concern,

I just wanted to comment on the potential change to FM stations. Currently I enjoy the benefits of some of my local radio stations using this frequency including Airl. They encourage healthy morals and positive music in our community. They bring to light important issues in our community and country.

I worry that if Airl's ability to broadcast on its stations was removed that it would be detrimental to the health of our society and community. I don't know that I could find programming to replace it.

I believe Airl is a key alternative for youth today to listen to. The music is always clean and positive and there wouldn't be much of an alternative of good clean rock to listen to in our area if they were unable to continue broadcasting. Youth would be left to stations playing music with questionable moral ideas and language.

I urge you to continue letting Airl broadcast as they have been for years now. Their impact on my life has been irreplaceable.

Sincerely,

Katie Crawford

Why you believe that the service provided by Airl is in the public interest.
